

Looking for the best Victoria has to offer in custom built gates, handrails and railings? At Victoria Railings we can fabricate unique, durable railings to meet any architectural requirements you might have. All of our high quality products are manufactured in-house to guarantee the highest standard. Each piece is inspected to confirm an accurate fit and structural strength before being power coated for protection against corrosion to ensure a long lasting finish.

Powder coating not only protects your railings from the elements, diminishing the requirement for heavy maintenance against crazing or fading but also improves rigidity and, with our wide range of colours and textures to select from, ensures that your railing exactly matches its intended location.

Low maintenance and durable, our aluminum railings are any easy choice to add style to any deck or patio.

#### Types of railings we specialize in:

- Open Top Glass Railings
- Rail Top Glass Railings
- Stair & Safety Railings
- Gates & Fences
- Picket Railings
- Engineered Railings
- Side Mount Railings
- Privacy Railings
- Pool Enclosures
